

**Healthcare Laws Every
Provider Should Know:
2022 Update**

The laws and regulations impacting healthcare providers and consumers are constantly changing, both at the Federal level and within our State of Georgia. Our 2022 update will look at the changes in the legal landscape due to the lingering COVID-19 pandemic with a special focus on the legal implications of federal and workplace vaccine mandates. In addition we will review Federal HIPAA (Health Insurance Portability and Accountability Act) laws to see what is actually protected by HIPAA and we will examine the 1013 law which authorizes transportation to an emergency receiving facility for those in a mental health crisis.
